

Package ‘resampledata’

August 30, 2019

Type Package

Title Data Sets for Mathematical Statistics with Resampling in R

Version 0.3.1

Suggests resample (>= 0.4)

Maintainer Albert Y. Kim <albert.y.s.kim@gmail.com>

Description Package of data sets from “Mathematical Statistics with Resampling in R” (1st Ed. 2011, 2nd Ed. 2018) by Laura Chihara and Tim Hesterberg.

Depends R (>= 2.10)

License CC0

LazyData TRUE

RoxygenNote 6.1.1

Alelager	<i>Calories and alcohol content for ales and lagers.</i>
----------	--

Description

A data set containing X. The variables are as follows:

Usage

Alelager

Format

A data frame with X rows and Y variables:

-

Bangladesh	<i>Bangladesh</i>
------------	-------------------

Description

The Bangladesh data is provided solely for illustrative purposes and to enable statistical analysis. Full data are available from the British Geological Survey web site: <http://www.bgs.ac.uk/arsenic/bphase2/datadownload.htm>.

Usage

Bangladesh

Format

A data frame with X rows and Y variables:

-

Details

A data set containing X. The variables are as follows:

Batters2005

Batters2005

Description

A data set containing X. The variables are as follows:

Usage

Batters2005

Format

A data frame with X rows and Y variables:

-

Beerwings

Beer and hot wings consumption.

Description

A data set containing X. The variables are as follows:

Usage

Beerwings

Format

A data frame with X rows and Y variables:

-

BookPrices	<i>Price of hardcover textbooks from mathematics and the natural sciences and the social sciences.</i>
------------	--

Description

A data set containing X. The variables are as follows:

Usage

BookPrices

Format

A data frame with X rows and Y variables:

-

Bushmeat	<i>Bushmeat in Ghana.</i>
----------	---------------------------

Description

A data set containing X. The variables are as follows:

Usage

Bushmeat

Format

A data frame with X rows and Y variables:

-

Bushmeat2

Bushmeat in Ghana.

Description

A data set containing X. The variables are as follows:

Usage

Bushmeat2

Format

A data frame with X rows and Y variables:

-

Cameras

Prices of a sample of point-and-shoot digital cameras.

Description

A data set containing X. The variables are as follows:

Usage

Cameras

Format

A data frame with X rows and Y variables:

-

Cereals	<i>Information on various cereals.</i>
---------	--

Description

A data set containing X. The variables are as follows:

Usage

Cereals

Format

A data frame with X rows and Y variables:

-

Challenger	<i>Data on 23 Challenger flights.</i>
------------	---------------------------------------

Description

A data set containing X. The variables are as follows:

Usage

Challenger

Format

A data frame with X rows and Y variables:

-

ChiMarathonMen	<i>Data on Marathon times.</i>
----------------	--------------------------------

Description

A data set containing X. The variables are as follows:

Usage

ChiMarathonMen

Format

A data frame with X rows and Y variables:

-

corrExerciseA	<i>Correlation Exercise A p.294</i>
---------------	-------------------------------------

Description

A data set containing X. The variables are as follows:

Usage

corrExerciseA

Format

A data frame with X rows and Y variables:

-

`corrExerciseB`*Correlation Exercise B p.294*

Description

A data set containing X. The variables are as follows:

Usage`corrExerciseB`**Format**

A data frame with X rows and Y variables:

-

`Cuckoos`*Cuckoos*

Description

A data set containing X. The variables are as follows:

Usage`Cuckoos`**Format**

A data frame with X rows and Y variables:

-

Diving2017	<i>Diving times in 2017</i>
------------	-----------------------------

Description

A data set containing X. The variables are as follows:

Usage

Diving2017

Format

A data frame with X rows and Y variables:

-

Fatalities	<i>Random sample of 100 driver fatalities in 2009 in Pennsylvania.</i>
------------	--

Description

A data set containing X. The variables are as follows:

Usage

Fatalities

Format

A data frame with X rows and Y variables:

-

FishMercury	<i>Mercury levels (parts per million) for 30 fish caught in lakes in Minnesota.</i>
-------------	---

Description

A data set containing X. The variables are as follows:

Usage

FishMercury

Format

A data frame with X rows and Y variables:

-

FlightDelays	<i>Information on 4029 United and American airlines departures from LGA during May and June 2009.</i>
--------------	---

Description

A data set containing X. The variables are as follows:

Usage

FlightDelays

Format

A data frame with X rows and Y variables:

-

Girls2004	<i>Random sample of 40 baby girls born in Alaska and 40 baby girls born in Wyoming.</i>
-----------	---

Description

A data set containing X. The variables are as follows:

Usage

Girls2004

Format

A data frame with X rows and Y variables:

-

Groceries	<i>Groceries.</i>
-----------	-------------------

Description

A data set containing X. The variables are as follows:

Usage

Groceries

Format

A data frame with X rows and Y variables:

-

GSS2002

Results from 2002 General Society Survey.

Description

A data set containing X. The variables are as follows:

Usage

GSS2002

Format

A data frame with X rows and Y variables:

-

GSS2006

Results from 2006 General Society Survey.

Description

A data set containing X. The variables are as follows:

Usage

GSS2006

Format

A data frame with X rows and Y variables:

-

IceCream	<i>Calorie information for a sample of brands of chocolate and vanilla ice cream.</i>
----------	---

Description

A data set containing X. The variables are as follows:

Usage

IceCream

Format

A data frame with X rows and Y variables:

-

ILBoys	<i>IL Boys</i>
--------	----------------

Description

A data set containing X. The variables are as follows:

Usage

ILBoys

Format

A data frame with X rows and Y variables:

-

Illiteracy	<i>Data on a sample of countries where female illiteracy is more than 5 percent.</i>
------------	--

Description

A data set containing X. The variables are as follows:

Usage

Illiteracy

Format

A data frame with X rows and Y variables:

-

Lottery	<i>Winning numbers for the daily games from May 5, 2010 through August 15, 2010.</i>
---------	--

Description

A data set containing X. The variables are as follows:

Usage

Lottery

Format

A data frame with X rows and Y variables:

-

manatees

manatees

Description

A data set containing X. The variables are as follows:

Usage

manatees

Format

A data frame with X rows and Y variables:

-

MathAnxiety

Math Anxiety

Description

A data set containing X. The variables are as follows:

Usage

MathAnxiety

Format

A data frame with X rows and Y variables:

-

Maunaloa	<i>Data on average CO2 levels (ppm) for the month of May from 1990 to 2010.</i>
----------	---

Description

A data set containing X. The variables are as follows:

Usage

Maunaloa

Format

A data frame with X rows and Y variables:

-

MnGroundwater	<i>Measurements on water quality of 895 randomly selected wells in Minnesota.</i>
---------------	---

Description

A data set containing X. The variables are as follows:

Usage

MnGroundwater

Format

A data frame with X rows and Y variables:

-

MobileAds

Mobile Ads.

Description

A data set containing X. The variables are as follows:

Usage

MobileAds

Format

A data frame with X rows and Y variables:

-

Nasdaq

NASDAQ Data.

Description

A data set containing X. The variables are as follows:

Usage

Nasdaq

Format

A data frame with X rows and Y variables:

-

NBA1617	<i>NBA 2016-2017 data.</i>
---------	----------------------------

Description

A data set containing X. The variables are as follows:

Usage

NBA1617

Format

A data frame with X rows and Y variables:

-

NCBirths2004	<i>Random sample of 1009 babies born in North Carolina during 2004.</i>
--------------	---

Description

A data set containing X. The variables are as follows:

Usage

NCBirths2004

Format

A data frame with X rows and Y variables:

-

Olympics2012	<i>2012 Olympics Data.</i>
--------------	----------------------------

Description

A data set containing X. The variables are as follows:

Usage

Olympics2012

Format

A data frame with X rows and Y variables:

-

Phillies2009	<i>Data from the 2009 season for the baseball team of the Philadelphia Phillies.</i>
--------------	--

Description

A data set containing X. The variables are as follows:

Usage

Phillies2009

Format

A data frame with X rows and Y variables:

-

Pitchers2005

Pitchers2005

Description

A data set containing X. The variables are as follows:

Usage

Pitchers2005

Format

A data frame with X rows and Y variables:

-

Quakes

Time between earthquakes (in days).

Description

A data set containing X. The variables are as follows:

Usage

Quakes

Format

A data frame with X rows and Y variables:

-

Quetzal

Quetzal.

Description

A data set containing X. The variables are as follows:

Usage

Quetzal

Format

A data frame with X rows and Y variables:

-

RangersTwins2016

Rangers/Twins 2016 Baseball Data.

Description

A data set containing X. The variables are as follows:

Usage

RangersTwins2016

Format

A data frame with X rows and Y variables:

-

Reading	<i>Children's reading abilities.</i>
---------	--------------------------------------

Description

A data set containing X. The variables are as follows:

Usage

Reading

Format

A data frame with X rows and Y variables:

-

Recidivism	<i>Recidivism data.</i>
------------	-------------------------

Description

A data set containing X. The variables are as follows:

Usage

Recidivism

Format

A data frame with X rows and Y variables:

-

resampledata	<i>resampledata: Data Sets for Mathematical Statistics with Resampling in R</i>
--------------	---

Description

Package of data sets from "Mathematical Statistics with Resampling in R" (1st Ed. 2011, 2nd Ed. 2018) by Laura Chihara and Tim Hesterberg. Note the [Bangladesh](#) data is provided solely for illustrative purposes and to enable statistical analysis. Full data are available from the British Geological Survey web site <http://www.bgs.ac.uk/arsenic/bangladesh/>.

Data sets

Type `data(package="resampledata")` to view all datasets.

Examples

```
library(resampledata)
data(FlightDelays)
```

Salaries	<i>Salaries</i>
----------	-----------------

Description

A data set containing X. The variables are as follows:

Usage

Salaries

Format

A data frame with X rows and Y variables:

-

Sat2008	<i>Sat2008</i>
---------	----------------

Description

A data set containing X. The variables are as follows:

Usage

Sat2008

Format

A data frame with X rows and Y variables:

-

Service	<i>Service times (in minutes) for 174 customers at a college snack bar.</i>
---------	---

Description

A data set containing X. The variables are as follows:

Usage

Service

Format

A data frame with X rows and Y variables:

-

Skateboard	<i>Skateboarding data</i>
------------	---------------------------

Description

A data set containing X. The variables are as follows:

Usage

Skateboard

Format

A data frame with X rows and Y variables:

-

Skating2010	<i>Scores from the short program and free skate for men's figure skating in the 2010 Olympics.</i>
-------------	--

Description

A data set containing X. The variables are as follows:

Usage

Skating2010

Format

A data frame with X rows and Y variables:

-

Spruce	<i>Study of factors affecting the growth of the black spruce.</i>
--------	---

Description

A data set containing X. The variables are as follows:

Usage

Spruce

Format

A data frame with X rows and Y variables:

-

Starcraft	<i>Starcraft</i>
-----------	------------------

Description

A data set containing X. The variables are as follows:

Usage

Starcraft

Format

A data frame with X rows and Y variables:

-

Titanic	<i>Data on male passengers on the Titanic.</i>
---------	--

Description

A data set containing X. The variables are as follows:

Usage

Titanic

Format

A data frame with X rows and Y variables:

-

Turbine	<i>Wind Speeds (m/s) from Carleton College Turbine.</i>
---------	---

Description

A data set containing X. The variables are as follows:

Usage

Turbine

Format

A data frame with X rows and Y variables:

-

TV	<i>TV</i>
----	-----------

Description

A data set containing X. The variables are as follows:

Usage

TV

Format

A data frame with X rows and Y variables:

-

TXBirths2004	<i>Random sample of 1587 babies born in Texas in 2004.</i>
--------------	--

Description

A data set containing X. The variables are as follows:

Usage

TXBirths2004

Format

A data frame with X rows and Y variables:

-

Verizon	<i>Random sample of repair times for 1664 ILEC and 23 CLEC customers.</i>
---------	---

Description

A data set containing X. The variables are as follows:

Usage

Verizon

Format

A data frame with X rows and Y variables:

-

Volleyball12009	<i>Volleyball2009</i>
-----------------	-----------------------

Description

A data set containing X. The variables are as follows:

Usage

Volleyball12009

Format

A data frame with X rows and Y variables:

-

wafers	<i>Wafers</i>
--------	---------------

Description

A data set containing X. The variables are as follows:

Usage

wafers

Format

A data frame with X rows and Y variables:

-

Walleye	<i>Length and weight measurements for a sample of 60 walleye caught in Minnesota lakes.</i>
---------	---

Description

A data set containing X. The variables are as follows:

Usage

Walleye

Format

A data frame with X rows and Y variables:

-

Watertable	<i>Relationship between seedling growth and water table depth for a sample of seedlings.</i>
------------	--

Description

A data set containing X. The variables are as follows:

Usage

Watertable

Format

A data frame with X rows and Y variables:

-
